Chemistry 201 Qualitative Analysis Introduction General comments: It is always a good idea to use as few chemicals as possible; it makes sense both from consideration of lab safety and chemical waste disposal. Therefore, keep in mind that each of the chemical tests that are discussed below can be done with a few drops of solution. Remember that when using such small amounts, it is extremely ...

### **Chem 201 - Qualitative Analysis Lab**

Analytical chemistry studies and uses instruments and methods used to separate, identify, and quantify matter. In practice, separation, identification or quantification may constitute the entire analysis or be combined with another method.
