Economics BSc (Hons) - northampton.ac.uk

Graduates who understand the commercial and economic environment and who are also highly numerate are in short supply. If you enjoy solving problems and you're interested in the practical application of economics and mathematics, this degree course could be what you're looking for.

Q15 | BSc (Honours) Economics and Mathematical Sciences ...

Mathematical economics is the application of mathematical methods to represent theories and analyze problems in economics. By convention, these applied methods are beyond simple geometry, such as differential and integral calculus, difference and differential equations, matrix algebra, mathematical programming, and other computational methods.

Mathematical economics - Wikipedia

Deforestation. The Human Development Report 2011 reported that deforestation is a severe problem. In the last two decades, Latin American and Sub-Saharan Africa have experienced severe forest losses, especially when compared to the rest of the world.

Sustainable Development | Economics | tutor2u

Economics is much broader than the study of recessions and inflation or stocks and bonds. Economists study decision making and incentives, such as the incentives for a firm to stop polluting and how taxes create incentives for labor market and savings behavior.
